## **What about Hair, Makeup, and Glasses?**

**Hair-** try to have your hair cut (and/or perm) at least one week before the session, to give it a chance to "fill in" a little. A styling before the session by a professional is also a really good idea.

**Makeup-** (guys too) here is a quick hint that will greatly enhance your portraits; Just before your session, stand two feet in front of the mirror. Dab a SMALL amount of cover up makeup on blemishes. That's it, if there gone in the mirror they are gone in the photo. Ladies, bring your make up along with you to the session so that we may make adjustments as needed.

**Glasses-** If you wear glasses most of the time, you'll want to wear them in your portraits. To eliminate glare and reflections, call your optician and arrange to either borrow a pair of empty frames like yours or have the lenses removed from your own frames. Most opticians will gladly do this for free (make sure you give them plenty of notice though). This totally eliminates glare and distortion, and is the most important way to improve your portraits if you wear glasses. If you choose to wear your glasses the way they are, keep in mind that if you want reflections removed it will be done at your own expense.\*see retouching

**PERSONALIZE YOUR PORTRAITS**

It is our goal at Jon Elder Productions to produce a truly individual and unique portrait that reflects the true personality of you, your group, or your family. Please feel free to bring along a personal article that reflects some facet of your personality, or says something about who you are. Some suggestions would include a child's favorite toy or security blanket, the family dog, a student's letter jacket, musical instrument, favorite hat, sunglasses, sports equipment, or whatever you would like to add variety and interest.
